SHORT NOTICE QUESTIONS AND ANSWERS.

Supply of water during summer months in Low Level Channels.

Q.—7. Sri K. PUTTASWAMY (Srirangapatna).—

Will the Government be pleased to state:—

(*a*) whether it is not a fact that water should be supplied during summer months for ten days in a month in the low level channels, namely, Bangara Doddi Nala, Virijanadi Nala and up to 21 miles in C.D.S. Channel;

(*b*) whether such supply is given during this summer and especially in the month of March 1953;

(*c*) if such supply is not made, what are the reasons for the same;

(*d*) whether it is not a fact that extra tax is recovered from the landholders under those channels on the ground that water is supplied during summer months;

(*e*) whether it is not possible to supply water at least for 5 days during this month?

A.—Sri KADIDAL MANJAPPA (Minister for Revenue and Public Works).—

(*a*) Yes.

(*b*) No.

(*c*) This is due to insufficient flow of water in Cauvery River and also due to extraordinarily low storage conditions in K.R.S. Reservoir.

(*d*) Information is not readily available.

(*e*) No.

Sri K. PUTTASWAMY.—When did the Government take the decision of supplying water to the people?

Sri M. LINGANNA.—On a point of order, Sir. I want to know how this question is to be construed as short notice question .... of public importance?

Mr. SPEAKER.—You please sit down. I have already allowed this question.

Sri K. PUTTASWAMY—When did the Government decide to supply water during summer months?

Sri KADIDAL MANJAPPA.—This year.

Sri K. PUTTASWAMY.—In what months, Sir?

Sri KADIDAL MANJAPPA.—I cannot give you the exact date.

Sri K. PUTTASWAMY.—Did you supply water in the month of February?

Sri KADIDAL MANJAPPA.—I require notice.

Sri K. PUTTASWAMY—Did the Government obtain the report of the concerned Engineer before the step was taken up?

Sri KADIDAL MANJAPPA.—Yes, we have consulted, and this matter was also discussed in the K.R.S. Committee.

Sri K. PUTTASWAMY.—Will the Government kindly tell us whether the agriculturists were informed before-hand, sir?

Sri KADIDAL MANJAPPA.—They had come to know of it in view of the short supply of water in the K.R.S. Dam.

Sri K. PUTTASWAMY.—When did they come to know of it?

Sri KADIDAL MANJAPPA.—In the month of January itself.

Sri K. PUTTASWAMY.—Did the Government tell the raiyats that they would not be able to supply water in the months of March and April?

Sri KADIDAL MANJAPPA.—That depended upon the supply of water available in the lake and we made it clear to the members of the Krishnarajsagar Working Committee that we shall not be able to supply water if the supply does not improve?

Sri K. PUTTASWAMY.—When did the Krishnarajsagar Working Committee meet?

Sri KADIDAL MANJAPPA.—In the month of January.

Sri K. PUTTASWAMY.—After the Krishnarajsagar Working Committee took a decision, were the agriculturists informed about the decision?

Sri KADIDAL MANJAPPA.—The representatives of the agriculturists were there and were informed of it.

Sri K. PUTTASWAMY.—My question is whether the agriculturists were informed of it?

Sri KADIDAL MANJAPPA.—It is not possible to inform all the agriculturists.

Sri K. PUTTASWAMY.—Was it not possible to notify in any daily paper or through revenue officials that agriculturists need not prepare for agricultural operations in view of the inability of the Government to supply water?

Sri KADIDAL MANJAPPA.—We would have supplied water if there was rain in the months of January and February and if the storage had increased. We could not definitely notify the agriculturists at the time. About three days ago the Superintending Engineer has been informed to allow water in C. D. S. Channel for at least three days.

Sri K. PUTTASWAMY.—Did the Government examine the legal implications for stopping water in these channels ?

Sri KADIDAL MANJAPPA.—These are things pertaining to *vis major*. We are helpless in the matter.

Sri K. PUTTASWAMY.—What was the storage of water in the Cauvery River ?

Sri KADIDAL MANJAPPA.—On 24th March 1953 the reservoir level was 59.06 as against 99.36 on 24th February 1952.

Sri K. PUTTASWAMY.—Will the Hon'ble Minister tell the quantity of water in cusecs ?

Sri KADIDAL MANJAPPA.—The rate of flow of water in Cauvery is between 200 and 300 cusecs, as against 900 cusecs.

Sri K. PUTTASWAMY.—What was the number of cusecs of water required for these channels ?

Sri KADIDAL MANJAPPA.—I cannot give you the exact quantity in terms of cusecs.

Recommendation of the Adviser to the Government of India in regard to licensing of hullers.

Q.—11. Sri R. ANANTARAMAN (Chamarajpet).—

Will the Government be pleased to state :—

(*a*) whether Adviser to the Government of India recommended that no more hullers should be licensed unless they are provided with improvements required to save milling losses ;

(*b*) when the recommendation was made ;

(*c*) whether it is applicable to flour mills, attached with the rice polishing machines, running in the Corporation Area of Bangalore City or to only rice mills ;

(*d*) whether the above flour mills in the Corporation Area were exempted previously from taking licenses that are issued to rice mills ;

(*e*) whether such exemptions still continue ?

A.—Sri H. SIDDAVEERAPPA (Minister for Home and Industries).—

(*a*) Yes.

(*b*) On the 1st May 1950.

(*c*) Yes, it is applicable to the rice polishing machines in the Corporation Area.

(*d*) and (*e*) Information is not readily available.

Sri R. ANANTARAMAN.—Does the recommendation of the Adviser to the Government of India apply to hulling only ?

Sri H. SIDDAVEERAPPA.—Yes.

Sri R. ANANTARAMAN.—May I take it that it will not be applicable to floor mills attached with rice polishing machines ?

Sri H. SIDDAVEERAPPA.—It does ; wherever there is a chance of paddy being hulled by means of a huller even in a flour mill, it attaracts the operation of the order.

Sri R. ANANTARAMAN.—I say it applies only to flour mills attached with rice polishing machines and not to hullers.

Sri H. SIDDAVEERAPPA.—It does not apply according to the Act. I have got it examined in the law section. The opinion is to that effect.

Sri R. ANANTARAMAN.—Was not an exemption given last year to the flour mill owners that there is no necessity for them to take license ?

Sri H. SIDDAVEERAPPA.—I want notice.

Sri R. ANANTARAMAN.—If exemption was given last year, will the Government continue that exemption this year also ?

Sri H. SIDDAVEERAPPA.—I will get it examined.

Sri S. SRINIVASA IYENGAR.—Is it necessary to obtain license in places where there is no rationing ?

Sri H. SIDDAVEERAPPA.—It is necessary for the moment. The Act is in force.
